What-If Report (Changing Majors)

Students change majors. It happens. But if you are wondering how changing your major will affect your graduation status, all you have to do is run a “What-If Report”.

1. Log on to Campus Connection.
2. Click Student Center.
3. Under the Academics headline, select the What-If Report.
5. Your current degree will automatically fill the first line of logic. In the second line, select the program you are thinking you might change to for your degree. You can add up two programs (no including your original program) to the What-If Scenario.
6. Click Submit Request.
