

# ASC 092: Beginning Algebra Syllabus

---

## Course Description

This course is a beginning level algebra course. Topics covered include fundamental operations, factoring, fractions, exponents, radicals and equations. This class does not satisfy college graduation requirements for math.

**Credits:** 3 Semester Credits

**Prerequisite(s):** None

**Delivery Method:** In class and via IVN (Interactive Video Network).

## Course Objectives/Student Outcomes

The students will be able to

- Perform basic algebraic operations using positive and negative numbers, fractions and exponents
- Demonstrate an understanding of terms and rules used in algebra
- Utilize problem solving strategies to solve problems
- Simplify expressions and solve equations & inequalities
- Factor using greatest common factor, factor by grouping and factor trinomials of the form  $x^2 + bx + c$
- Plot points, graph linear equations and find the slope of a line
- Analyze and solve various types of math problems
- Utilize a hand-held calculator when solving algebra problems
- Gain the skills needed to participate in a college algebra course

**Instructor:** Connie Blair

**Office:** Admin RM 159

**Office Hours:** MWF: 11:00-12:00 and TuTh: 10:00-11:00 or by appointment

**Email:** [connie.blair@minotstateu.edu](mailto:connie.blair@minotstateu.edu)

**Class Schedule:** 10:00-10:50MWF (HHall 316); 11:00-12:15 TuTh (Admin 364)

**Textbook:** *Beginning and Intermediate Algebra by Tobey, Slater, Blair, and Crawford 4th edition*  
Pearson

## Course Requirements

Learning algebra is an **investment of time**. Algebra is learned best by practicing, reflecting, and practicing some more. While understanding examples provided by the instructor and textbook is a good first step, to truly master the material you should be able to look at a problem, know how to proceed and be able to carry out the steps **WITHOUT ASSISTANCE**. The independent practice (including homework and practice tests) in MyMathLab provides opportunities for you to get to that point. Passing grades on chapter tests demonstrate that you have indeed mastered the skills taught.

## Evaluation

**Homework—10%**

Homework will be submitted in MyMathLab unless stated otherwise and can be found under the homework tab in MyMathLab. You may work ahead, but each homework assignment must be completed by the due date listed otherwise there will be a 30% penalty. There is no limit to the number of times you can complete a homework assignment.

**Quizzes—20%** These mid-chapter quizzes will be taken in a proctored setting on the computer unless otherwise stated. Missed quizzes must be made up within three business days.

**Tests—70%** There will be five tests throughout the semester. Your final exam may replace your lowest test score. There will be no make-ups.

Letter grades are assigned using the following scale

**A 89.50%-100%**

**B 79.50%-89.49%**

**C 69.50%-79.49%**

**D 59.50%-69.49%**

**F 59.49% or lower**

## **Course Outline (subject to change)**

***specific dates for your course can be found in the course calendar in MyMathLab***

### Chapter 0: Pre-Algebra Review

0.1: Simplifying Fractions

0.2: Adding and Subtracting Fractions

0.3: Multiplying and Dividing Fractions

0.4: Using Decimals

#### **Quiz #1: Sections 0.1-0.4**

0.5: Percents, Rounding, and Estimating

0.6: Using the Mathematics Blueprint for Problem Solving

#### **Chapter 0 Test**

### Chapter 1: Real Numbers and Variables

1.1: Adding Real Numbers

1.2: Subtracting Real Numbers

1.3: Multiplying and Dividing Real Numbers

1.4: Exponents

1.5: The Order of Operations

#### **Quiz #2: Sections 1.1-1.5**

1.6: Using the Distributive Property to Simplify Algebraic Expressions

1.7: Combining Like Terms

1.8: Using Substitution to Evaluate Algebraic Expressions and Formulas

1.9: Grouping Symbols

#### **Chapter 1 Test**

### Chapter 2: Equations, Inequalities, and Applications

2.1: The Addition Principle of Equality

2.2: The Multiplication Principle of Equality

2.3: Using the Addition and Multiplication Principles Together

2.4: Solving Equations with Fractions

#### **Quiz #3: Sections 2.1-2.4**

2.5: Translating English Phrases into Algebraic Expressions

2.6: Using Equations to Solve Word Problems

2.7: Solving Word Problems: The Value of Money and Percents

2.8: Solving Inequalities in One Variable

#### **Chapter 2 Test**

### Chapter 5: Exponents and Polynomials

5.1: The Rules of Exponents

5.2: Negative Exponents and Scientific Notation

5.3: Fundamental Polynomial Operations

#### **Quiz #4: Sections 5.1-5.3**

- 5.4: Multiplying Polynomials
- 5.5: Multiplication: Special Cases
- 5.6: Dividing Polynomials

#### **Chapter 5 Test**

#### Chapter 6: Factoring

- 6.1: Removing a Common Factor
- 6.2: Factoring by Grouping
- 6.3: Factoring Trinomials of the Form  $x^2 + bx + c$
- 6.4: Factoring Trinomials of the Form  $ax^2 + bx + c$

#### **Quiz #5: Sections 6.1-6.4**

#### Chapter 3: Graphing and Functions

- 3.1: The Rectangular Coordinate System
- 3.2: Graphing Linear Equations

#### **Chapter 6 and Chapter 3 Test**

## **Relationship to Campus Theme**

This course introduces algebra skills that are used to solve problems in science, technology, business and social sciences. These problems will require critical thinking and interaction with other students.

## **Classroom Policies**

- **ATTENDANCE:** The sequential nature of mathematics deems it necessary for students to attend class and *participate* on a regular basis, therefore one of the course requirements is regular attendance. If you cannot attend class for whatever reason, please notify the instructor immediately.
- **ASSIGNMENTS:** Students may work ahead; however, each assignment must be completed on or before the due date to receive full credit.
- **ELECTRONIC DEVICES:** Turn off or mute (not vibrate) cell phones, pagers, and other electronic devices. There is absolutely no cell phone or iPod use during class.

## **Academic Integrity**

The academic community is operated on the basis of honesty, integrity and fair play. It is the expectation that all students, as members of the college community, adhere to the highest levels of academic integrity. This means that

- Students are responsible for submitting their own work. Student work must not be plagiarized.
- Students must not cooperate on oral or written examinations or work together on evaluated assignments without authorization

Violations of academic principles such as cheating, plagiarism or other academic improprieties will be handled using the guidelines outlined in the Student Handbook.

## **Disabilities and Special Needs**

If you have a disability for which you need accommodation, please speak with me immediately. If you have already met with Student Developmental personnel, please provide me with the information regarding your needs so that I can make the appropriate accommodations.
