Introductory Chemistry Syllabus Fall 2014

Course prefix/number/title: Chem. 115, Introductory Chemistry

Number of credits: 4

Course Description: The goal of Introductory Chemistry is to provide students with a foundation in

chemical concepts and principles. The class consists of three one hour lectures and one two hour lab period. The class is designed for non-science orientated majors and is a

requisite or pre-requisite for most nursing programs in North Dakota.

Pre-/Co-requisites: none

Course Objectives: Introductory Chemistry is designed to provide a firm foundation in chemical concepts

and principles so students will develop and appreciation of the vital role that chemistry

plays in their everyday lives.

Instructor: Angie Bartholomay

Office/Phone: Nelson Science Center, Room 111 Phone: 228-5471

Office Hours: MWF 9-10:00am & 1-2:00pm

E-mail: angela.bartholomay@dakotacollege.edu

Lecture/Lab Schedule: lecture 11:00-11:50 am, MWF lab T 8-9:50am, Th 11-12:50

Text: <u>Introductory Chemistry</u>, by Zumdahl, 6th edition.

Student Email Policy

Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Course Requirements:

Grading: Grades will be based on total points using the following percentage system: 100-90, A: 89-80, B; 79-70, C; 69-60, D; <60, F. Exams, research paper, and homework quizzes, and lab reports will be used to determine the final grade. IMPORTANT! Any grievances concerning graded material must be addressed within one week from the time the material is returned to the student.

 Exams (5)
 500pts

 Lab Reports (25 pts. Each)
 300pts

 Final Lab
 100pts

 Quizzes (10pts. Each)
 100pts

 1000pts
 1000pts

Exams: There will be five exams during the course of the semester. Exams may contain short answer/essay, multiple choice, completion and problems. Periodic tables may be used on the exams and will be provided by the instructor. There will be no makeup exams unless prior arrangements have been made. If you need to be gone for a school related activity or family event, you will be expected make arrangement prior to the event and take the exam before you leave.

Homework: Homework will be assigned throughout the semester and will be discussed in class, these assignments can be used on quizzes. Homework is designed to prepare you for exams and quizzes. These quizzes will be unannounced throughout the semester there will not be make-up quizzes. You are expected to read the assigned pages prior to class. Lecture may not cover everything assigned in the reading, but everything assigned is exam material. If you do not understand something in the readings, it is your responsibility to ask questions.

Laboratory: The laboratory portion of the course provides an opportunity to integrate lecture concepts with observable activities. Attendance at lab is mandatory! **Chemical splash safety goggles** and metric ruler are required and may be purchased at the bookstore. Failure to wear to wear goggles will result in a reduction in lab report grades and

continued omission will result in removal from lab activities and a loss of all remaining lab points available. To obtain credit, you must be actively involved in the laboratory activities. Regular lab reports are due at the beginning of the next lab period. Late lab reports will not be accepted.

The final lab will be an application of procedures learned throughout the semester you will be graded on your use of the scientific method, critical thinking skills and the completeness of your data, analysis and conclusions.

Final Lab: A special activity involving application of the principles of scientific method and inquiry will occur the last two lab sessions and are due at the end of the last scheduled lab day. This will be covered initially in the first lab of the semester and once more as you begin the final project.

Lecture	Chapter and Reading Assignment	t <u>Lab Topic</u>
Week 1	Ch. 1-2, Pages 1-18	No Lab
	Ch. 2, Pages 18-33	
Week 2	Ch. 2-3, Pages 33-66	measurement, accuracy, density
	Ch. 3, wrap-up and review	
	Chapter #1-3 Exam	
Week 3	Ch. 4, p. 72-88	percent composition
	Ch. 4, pages 89-104	
Week 4	Ch. 5, Pages 112-126	
	Ch. 5&6, Pages 126-149	physical & chemical change
Week5	Ch. 6&7, Pages 149-175	
	Ch. 7, Pages 175-191	empirical formulas
	Ch. 4-7 wrap up and review	
	Ch. 4-7 Exam	
Week 6	Ch. 8, Pages 203-218	
	Ch. 8, Pages 218-229	chemical reactions
Week 7	Ch. 9, Pages 239-251	relating moles to coefficients of a chemical equation
	Ch. 9, Pages 251-259	
Week 8	Ch. 8-9 Exam	mole & mass relationships
	Ch. 10, Pages 271-286	_
Week 9	Ch. 10, Pages 287-297	calorimetry
	Ch. 11, Pages 303-316	
Week 10	Ch. 11, Pages 317-332	Fame tests
	Ch. 12, Pages 341-356	
Week 11	Ch. 12, Pages 356-373	molecular geometry and valence electrons
	Ch. 10-12 Exam	
Week 12	Ch. 14, pages 427-432	
	Ch. 14, Pages 432-444	
Week 13	Ch. 15, Pages 451-462	solubility of a salt
	Ch. 15, Pages 462-473	
Week 14	Ch. 13-15 Exam	
	Ch. 16, Pages 487-507	properties of acids & Bases
Week 15	Ch. 17, Pages 515-526	
	Ch. 17, Pages 526-541	
Week 16	Ch. 18, Pages 553-566	
	Ch. 18, Pages 566-575	
	Ch. 16-18 Exam	Final Lab
Dec 12	Final Exam Review	
Dec 15-18	Final Exam Week	

General Education Goals/Objectives: This course meets General Education Goal 1: Explains the interrelationships between chemistry and their environment and the role of science in their lives. Specific objectives include:

- 1) Demonstrates the application of the scientific method of inquiry (Objective #1).
- 2) Demonstrates an awareness of the role of science in everyday life (Objective #3)

Relationship to Campus Theme: This course addresses the campus theme by incorporating the role that chemistry plays in our everyday life and the impact it has on our natural world. In addition students will use technology to conduct labs as well as study how technology can be used in chemistry. The course will address the role of chemistry in their everyday life as well as in their future.

Classroom Policies:

Make-up: I will not allow make-up for missed exams unless prior arrangements have been made. If you must be absent for a school related or family event, you are expected to make prior arrangements and take the exam prior to the event. If you are given permission to take a late exam you will have 48 hours to make it up.

Electronic Devices: Silence cellular phones, pagers, CD players, radios, and similar devices in the classroom and laboratory facilities. Reasonable laptop-size computers may be used in lecture for taking notes. If this is an IVN course, cell phone must be turned off at all times in class! I will not tolerate texting, playing games, watching videos or anything else that is disruptive to the class and others around you. You will be asked once to put the phone away, if asked again you will be asked to leave.

Do NOT wear headphones during tests. They are not allowed.

Be respectful of other students, technicians, instructors, and guests!

Academic Integrity: All students are expected to adhere to the highest standards of academic integrity. Dishonesty in the classroom or laboratory and with assignments, quizzes and exams is a serious offense and is subject to disciplinary action by the instructor and college administration. For more information, refer to the Student Handbook.

Disabilities and Special Needs: If you have a disability for which you need accommodations, you are encouraged to contact your instructor and the Learning Center (228-5479 or 1-888-918-5623) to request disability support services as early as possible during the beginning of the semester
