

ASC 93 – Algebra Prep III

2 credits

Instructor: Tracy Chisholm

Course Description: This course is a beginning level algebra course. Topics covered include equations, inequalities, applications, factoring, rational expressions & equations, and rational exponents & radicals. The class does not satisfy college graduation requirements for math.

Prerequisite: ASC 92 Algebra Prep II, placement by math placement test or instructor approval.

Course Objectives: It is expected that students will be able to:

- Perform basic algebraic operations using positive and negative numbers, fractions, and exponents. Demonstrate an understanding of terms and rules used in algebra.
- Utilize problem-solving strategies to solve problems.
- Simplify expressions & solve equations and inequalities.
- Factor using greatest common factor, factor by grouping, and factor trinomials.
- Plot points, graph linear equations, and find slope of a line.
- Analyze and solve various types of math problems
Utilize a hand-held calculator when solving algebra problems
- Gain the skills needed to participate in a college algebra course

Class Schedule: MTWF 1st 8-weeks 1:00pm – 1:50pm

Monday	Tuesday	Wednesday	Thursday	Friday
NSC 126	NSC 124	NSC 126		NSC 126
1-1:50pm	1-1:50pm	1-1:50pm		1-1:50pm

Instructor: Tracy Chisholm

Office: Nelson Science Center, Room 112

Phone: (701) 228-5424

E-mail: tracy.chisholm@dakotacollege.edu

Office Hours: Mon-Wed, Fri 3-4pm and Thursday 9-11am or by appointment

Tentative Course Outline:

Chapter	Topics	Dates
Chapter 6 (Review) Sections 6.1 – 6.7	Factoring	Week 1
Chapter 7 Sections 7.1-7.6	Rational Expressions & Equations	Weeks 2-4
Chapter 8 Sections 8.1-8.6	Rational Exponents & Radicals	Weeks 4-7
Chapter 9 Sections 9.1-9.3	Quadratic Equations & Inequalities	Weeks 7-8
Final Exam	COMPREHENSIVE	Week 8

Required Text: *Beginning & Intermediate Algebra 4th Edition* by Tobey, Slater, Blair and Crawford with MyMathLab online learning software Pearson Publishing

MyMathLab Learning Software Website: www.mymathlab.com

Course Requirements:

Learning algebra is an investment of time. Algebra is learned best by practice, reflect, and practice some more. Understanding the examples provided by the instructor and textbook is a good first step. However, to truly know the material, you should be able to look at a problem, know how to proceed, and carry out the steps WITHOUT ASSISTANCE. The independent practice and graded homework provide opportunities for you to get to that point. Passing grades on quizzes and tests demonstrate that you have indeed learned the skills taught.

Homework & Quizzes (15%): These are graded assignments that can be done multiple times. Only the highest score will be used. These assignments close at 11:59 PM, Central Daylight Time on the due date. Do the work well in advance. If the assignment is done after the posted due date, 30% will be deducted from your score. Quizzes will be given periodically. These may be announced or unannounced. Only announced quizzes can be made up. You will be deducted 10% for each day it is late up to two days. You cannot make it up after two days.

Notebook (10%): Work is expected to be shown for all work done in MyMathLab on the homework assignments. Each student must have a separate notebook solely for math class.

Homework assignments must be worked out in the notebook and labeled appropriately (this will be shown to you in class). Notebooks will be due on test days and graded during the test.

In-Class Activities (15%): Almost every section will have a graded activity that is meant to be completed in class. Some of these will be individual activities, some will be collaborative activities.

Tests (60%): Three graded tests and a comprehensive final are administered over the eight-week term. Students are allowed one attempt on each test and must be completed in one sitting. If a student leaves the classroom during a test, the test will be collected and graded. Tests must be taken on the day they are given or previous arrangements must be made prior to the test day. **If you miss an exam you must contact me within 24 hours of the missed exam to arrange for a time to make up the exam. Exams must be made up within 72 hours of the original exam time. If you do not contact me within 24 hours, a grade of 0 will be entered for the exam that was missed. Students are only allowed to make up ONE exam per course. The exam grade will be docked 10% per day for late points. *Cheating on tests will not be tolerated. If you are caught cheating, that will result in an automatic 0 for the exam.***

A = 90-100%
B = 80-89%
C = 70-79%
D = 60-69%

Students need a 70% final grade to move onto MATH 103 – College Algebra.

Classroom Policies:

- Respect is to be shown towards the instructor and fellow students in the classroom.
- Attendance and participation is expected. Twenty-five percent of your grade is based solely on participation and in-class activities. You are responsible for the activities of each class period. If you know of a conflict ahead of time, you are welcome to submit assignments early.
- Show up to class on time and be prepared (pencil, notebook, calculator, etc).
- Learning activities and evaluation will occur in the MyMathLab learning system and requires Internet connectivity.
- **Electronic Devices:** Silence cellular phones, pagers, CD players, radios, and similar devices in the classroom and laboratory facilities. If this is an IVN course, cell phone must be turned off at all times in class! I will not tolerate texting, playing games, watching videos or anything else that is disruptive to the class and others around you. You will be asked once to put the phone

away, if asked again you will be asked to leave. (If you are expecting an important phone call, please inform me before class.)

- **Do NOT wear headphones during class or tests. They are not allowed.**
- The syllabus is a living document that is subject to change. All assignments will be confirmed during the class prior to their due date. The instructor reserves the right to allow the class agenda to fluctuate as the course progresses.

Student Email Policy: Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

General Education Goals/Objectives:

- Goal 2: Demonstrates knowledge and application of technology.
 - Objective 2: Uses electronic resources for course related assignments and information
 - Skill 1: Selects appropriate program on the graphing calculator to solve problems
- Goal 3: Demonstrates the ability to convert, calculate, and analyze a variety of mathematical problems
 - Objective 1: Utilizes mathematical equations to solve problems
 - Skill1: Solves equations and problems using the appropriate method
 - Objective 2: Applies practical application of mathematics to everyday life
 - Skill3: Solves word problems

Relationship to Campus Theme: This course develops algebra skills that are used to solve problems in science, technology, business, and social sciences.

Academic Integrity: The academic community is operated on the basis of honesty, integrity and fair play. It is the expectation that all students, as members of the college community, adhere to the highest levels of academic integrity. This means that:

- Students are responsible for submitting their own work. Student work must not be plagiarized.
- Students must not cooperate on oral or written examinations or work together on evaluated assignments without authorization.
- If there is evidence of cheating on an exam the student will receive an F on the respective exam.

Disabilities and Special Needs: If you have a disability for which you need accommodation, contact the Learning Center to request disability support services: phone 701-228-5477 or toll-free 1-888-918-5623.
