GRADING: Grading is based on a standard college curve, where students earn a grade based on the percent of the total points possible they obtain. The laboratory component of this course consists of 300 points (15 labs @ 10 points each (5 points for attendance and 5 points for lab write-ups . Quizzes will be given in addition to lab reports, at which points will apply instead of the reports), a 50 point report/presentation, and five lab exams @ 20 points each). Laboratory points are added to lecture points (900) to obtain the total points possible for the course (1200). There is a one week grace period to makeup any missed lab or lab exam. Any missed lab/lab exam not made up within the allotted time will be given a zero. Letter grades are assigned based on the following criteria:

- A = 89.5-100% of the total points
- B = 79.5-<89.5% of the total points
- C = 69.5-<79.5% of the total points
- D = 59.5-<69.5% of the total points
- F = <59.5% of the total points
