This means that students are responsible for submitting their own work. Student work must not be plagiarized. Students must not cooperate on oral or written examinations or work together on valued assignments without authorization. Students should have high ethical standards and conduct themselves in an appropriate manner.

Written work is screened using plagiarism detection software. If plagiarism is detected the student is notified and receives an automatic failure on the assignment. If plagiarism is detected a second time, the student automatically fails the course.

Confidentiality

The experiences or problems shared by classmates during meeting time are not to be discussed outside of class. This is preparation for those going into a helping field where confidentiality is stressed in the CEC Standards for Professional Practice.
