Course Description

In this course, students will learn the art of photography using smartphones. The course will focus on the technical aspects and creative opportunities using smartphone cameras and post-production apps while learning aesthetics, composition, lighting, and other basic principles of design when creating two-dimensional art.

Rationale for Change

The reason for the change it to be in line with the course number system for NDUS. This will make the class transferable as an art elective on all campuses in ND.

### Complete if Course Deletion

Course Prefix

Course Number

Course Title (30 Characters Max)

Rationale for Deletion

### Effect on Resources

What effect will this course have on faculty teaching load?

None

What additional resources will be required (i.e., equipment, personnel, software, library materials, facilities, etc.)?

none
