Relationship to Campus Focus:

The quotation below, attributed to Dr. C.N. Nelson, no date, is published in the atrium of the Nelson Science Center here on the DCB campus.

Man lives in two worlds. The world of the biosphere and the world of the technosphere. To the degree in which man reconciles his imposed technosphere to the requirements of the biosphere will determine whether he becomes extinct, continues to exist, or enjoys enlightened living.

In his concise manifesto, Dr. Nelson uses language to alert people to the necessity of reconciling the technosphere with the biosphere. In addition to living in the two spheres Nelson identifies, humans also live in a logosphere, logos being a concept that includes "language," "word," "concept," and "Reason" as some aspects of its definition. By studying language to be used for informative or persuasive purposes, spoken or written, DCB students learn to use the resources of a third sphere that has the potential to reconcile the technosphere with the biosphere..
