The Strategic Plan for Dakota College at Bottineau, *Strategies for Success*, was developed over a seventeen-month timeframe from August 2022 through December 2023. A twenty-member strategic planning committee began work by reviewing the prior Strategic Plan and foundational statements, such as the mission, vision, and core values. To gather additional insights from internal stakeholders, surveys were developed, deployed, disseminated, and discussed. As various components were proposed, official action from Faculty Senate, Staff Senate, and Student Senate was sought through a repurposed Administrative Council. In early 2023, new Mission, Vision, and Values Statements were recommended for adoption. The State Board for Higher Education approved the new institutional mission statement in March 2023. Soon thereafter, three priorities for the college began to emerge.

In May 2023, a small representative subgroup traveled to Tempe, AZ for a strategic planning workshop offered by the Higher Learning Commission. The presentations confirmed that the timelines and approaches already being taken were reasonable. Following this experience, the existing institutional planning and evaluation processes were merged, and a collaborative governance structure implemented. This new group, called the College Council, ensures that the voices of faculty, staff, administration, and students are heard.

In August 2023, a list of specific action items was written for each priority area. These items were assembled into the first, annual implementation plan. Following institutional review, this one-year plan was adopted in October 2023. Simultaneously, descriptions for the newly adopted core values were crafted and approved. Goals for each priority area were then developed based on an assessment of the previously adopted specific action items.

In December 2023, the 2024-2029 Dakota College at Bottineau Strategic Plan, *Strategies for Success*, was adopted by College Council. This brochure was developed and submitted for final review by the North Dakota University System in early 2024. The plan now guides the work of the College.
