

ASSOCIATE OF SCIENCE

AGRICULTURE

Start small... go far with Dakota College at Bottineau.

The **Agriculture** curriculum at DCB provides a general education based curriculum for students pursuing a bachelor's degree in the agriculture leading to an Associate of Science Degree. The curriculum is designed to prepare students to subsequently pursue a bachelor's degree in agriculture.

Why study agriculture?

Studies in agriculture prepares students for careers related to farming and ranching, agribusiness and caring for natural resources.

Career choices

Graduates with a degree in agriculture are in high demand, with career opportunities in a wide variety of agriculture-related industries. Some examples of agriculture careers include:

- Farm and ranch management
- Plant science
- Water management
- Agricultural technology
- Sustainable agriculture
- Agribusiness
- Nutrition & food science

General education requirements

Completion of the Associate of Science degree with the biological sciences curriculum will meet the North Dakota University System's GERTA (General Education Requirement Transfer Agreement) requirements.

Core agriculture program classes

- BIOL 150/151 General Biology I & II
- BIOL 170 General Zoology
- RNG 236 Range Management

“ I felt that the agriculture program classes adequately prepared me for more in depth program classes at the university level. ”

— Amanda Monson
Bottineau, ND
