

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

NURS 237 Syllabus - Spring 2025

COURSE: NURS 237 Clinical Applications II

CREDIT HOURS: 5 Semester hours (240 lab/clinical hours)
192 hours in clinical (40 of these hours are on preceptorship)
48 hours in lab
1 credit of lab/clinical = 3 contact hours

COURSE DESCRIPTION:

Prioritize safe, effective, and culturally competent client care in acute and community settings during this clinical and simulation lab course. Clients with complex alterations in health and psychosocial issues are managed with a spirit of inquiry and collaboration to make evidence based clinical judgments. Quality improvement practices related to national safety goals are examined. Students will be challenged with a precepted activity during the latter part of this course.

MEETING TIME: **Clinical:** Tuesday, Thursday, Friday, and/or Saturday. Please see individualized site calendars for your clinical assignments.

Lab: As scheduled on Monday or Wednesdays per local campus

INSTRUCTORS: **Abby Wisham, MSN, RN,**
Associate Professor of Nursing
Bismarck State College
Health Sciences Building
1133 College Dr.
Bismarck, ND 58501
Office Hours: email or call for an appointment
Office (701) 224-2431
abby.wisham@ndus.edu

See local site schedules for the nursing director and clinical instructors at your location.

PREREQUISITE: NURS 224, Professional Role Development
NURS 225, Alterations in Health I
NURS 226, Maternal Child Nursing
NURS 227, Clinical Applications I

COREQUISITES: NURS 228, Alterations in Health II
NURS 229, Health Promotion and Psychosocial Nursing
NURS 259, Role Transitions

REQUIRED TEXTBOOKS:

1. Assessment Technologies Institute (ATI) Review Package, Skills Modules, and Virtual Review for RN students.
2. Horntvedt, T. (2023). *Calculating dosages safely: A dimensional analysis approach*. (3rd ed.). Philadelphia, PA: FA Davis.
3. LaCharity, L., Kumagai, C., Bartz, B., (2022). *Prioritization, Delegation, & Assignment, Practice Exercises for*

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

Medical-Surgical Nursing. 5th ed. Elsevier/Mosby St. Louis

4. Lewis, S. L., Dirksen, S., Heitkemper, M., & Bucher, L. (2023). *Medical-surgical nursing: Assessment and management of clinical problems*. (12th ed.). St. Louis: Mosby/Elsevier.
5. McKinney, E., James, S., Murray, S., Nelson, K., Ashwill, J. (2022). *Maternal-child nursing*. (6th ed.). St. Louis: Saunders/Elsevier. Text and/or eBook
6. Silvestri, L. A. (2022). *Saunders comprehensive review for the NCLEX-RN*. (9th ed.). St. Louis: Saunders/Elsevier.
7. UCentral by Unbound Medicine. (2023). *(Includes Davis Drug Guide and Davis Lab Guide)*

SPECIAL TECHNOLOGY UTILIZED BY STUDENTS:

Requirements for each student in this course include:

1. Microphone: any microphone, either internal or external
2. Webcam: 320×240 VGA resolution (minimum) internal or external
 - Students will be attending class, meetings, and making recordings so the microphone and webcam need to be in good working order.
3. Desktop or laptop computer
4. Printer (optional, for class handouts)
5. Reliable, high-speed internet
6. Desktop Browser – use Google Chrome or Mozilla Firefox
7. Access to word processing software that can produce, reading, and saving files in the following formats: **.doc, .docx, .pdf, .htm, .html, .rtf, .ppt, .pptx**
8. Access to Adobe Acrobat Reader © to open PDF files that are used during the course.
9. Log into the LMS Blackboard [daily](#) to keep abreast of course announcements, weekly content, and Grade Center.
10. Successfully navigate course Discussion Forums, Respondus Lockdown Browser, Blackboard Collaborate Ultra, Yuja/Blackboard Collaborate Proctor, and Yuja/Blackboard Collaborate.
11. Successfully install and navigate Microsoft Teams or Zoom on personal smartphone.
12. ATI technical requirements: <https://www.atitesting.com/technical-requirements>
13. Adhere to technology requirements for all instructional platforms utilized in the course.

STUDENT LEARNING OUTCOMES (With Related Learning Activities and Evaluation):

INFORMATICS: Integrate current technology to support decision-making and manage information in the delivery of client care.	11. Integrate current technology to support decision-making and manage information in the delivery of client care.	<ul style="list-style-type: none"> • Preceptorship • QI Project • Create and present trauma presentation • Clinical/Simulation performance and paperwork • Documentation/Confidentiality • Technology – safety equipment 	<ul style="list-style-type: none"> • Clinical performance evaluation • Patient assessment documentation • Clinical Judgement Tool • Simulation lab performance • Group and individual presentations • Preceptorship paperwork • QI Project • ATI NGN & Pharmacology Quizzes
--	--	--	---

GRADE BREAKDOWN:

35% - Clinical/Simulation Behavior/Performance

35% - Clinical/Simulation Written Work

20% - Trauma Presentations, QI Project, Conference, Health Fair, ATI Real Life, ATI NGN & Pharmacology Quizzes, Math quizzes/exams

10% - Preceptorship

GRADING POLICY:

The following grading scale is used:

92.0	-	100.00	= A
84.0	-	91.99	= B
76.0	-	83.99	= C
68.0	-	75.99	= D
Below 68			= F

There will be no rounding up of grades during the semester.

There is no extra credit offered.

Final exams will not be given early. Plan on being in school until the final day.

EXAM REMEDIATION (2023-2024 DNP Student Handbook, p. 36-37):

Math Remediation Policy

1. Proctored Quizzes

- The purpose of the proctored math quizzes is to prepare the student to successfully complete math exams.
- If a math quiz score is less than 90%, students will remediate.
 - Students have two proctored remediation attempts to score 90% or greater on quizzes.
 - Proctored remediation needs to be successfully completed one week from the proctored quiz date.
 - After the second unsatisfactory proctored remediation (<90%) the student meets with faculty and an unsafe occurrence form may be initiated along with a program improvement plan if the student is not showing initiative and effort in the remediation process.
 - Student may be required to make appointment with a math tutor.
- If a student's score is at a very low level (60% or below) on a quiz, **the student** is responsible to contact a lab instructor to set up a meeting for individual directions on following the remediation process as outlined above.

2. Exams

- The purpose of the math exams is for the student to show competence in the math aspect of medication administration as a part of safe nursing practice.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

- b. If a math exam score is less than 90%, students will remediate.
 - i. Students have two proctored remediation attempts to score 90% or greater on exams.
 - ii. Remediation needs to be successfully completed one week from the proctored exam date.
 - iii. If the student fails to pass the first remediation attempt, an unsafe occurrence along with a program improvement plan will be initiated.
 - iv. If the student fails to pass a math competency exam after three attempts (original exam and two remediation attempts), or does not adhere to the remediation process, failure of the clinical course may result.
- c. The score of the original exam will be the documented gradebook score.

NCLEX REVIEW PROGRAM NURSING REVIEW PROGRAM:

The Dakota Nursing Program requires students to purchase and complete an ATI Nursing Review Program. This program is complete with the review modules (Books or eBooks, Skills Modules, Online Practice Assessments, and Proctored Assessments). Please review the complete ATI policy in your student handbook for schedule of exams, preparation policy, remediation policy and grading levels.

GRADING:

Course and clinical grades are based on a variety of activities and assignments designated by the faculty. The criteria by which grades for each theory and clinical course are determined are included in course syllabi distributed to students. Students have access to and should review the learning management system grading calculation method.

Students are responsible to know what their grades are during the course. Please review the gradebook frequently. If an assignment or exam in the student's gradebook says the assignment or exam has not been submitted or has not been entered, it is then treated as a fact that the student did not do the assignment or exam unless the student has written proof that they did in fact complete and submit such assignment/exam as outlined in the directions. Make sure your assignments are submitted well before the due date to assure timely submission.

Please see your Dakota Nursing Student handbook for grading policies in addition to the policies listed below.

Grades: Grades are given for both theory classes and clinical performance of clinical nursing courses. Students must earn a minimum grade of "C" with a maintained 2.5 GPA or better in all required courses of the program. Students who fail a theory or clinical course will be dismissed from the nursing program. A final grade of D or F is considered to be a failed grade. Any time a student has unsatisfactory averages, he/she should contact the instructor for guidance.

Clinical Grades: Grades are awarded in clinical courses based on the student's ability to apply knowledge and skill to client care, to meet the clinical objectives for the course, and to give safe, reliable nursing care. The clinical instructor evaluates student performance after every clinical experience. Periodic written evaluations on student progress will be individually reviewed and signed by each student during student evaluation sessions. Responsible members of the health team may also contribute their observations of students' performance to be added to the evaluation of students.

Incomplete Grades: Incomplete grades will be given to a student only when extreme circumstances have prevented the student from completing all work by the end of the term and will be given at the discretion of the faculty as written in the student's home campus college catalog. An incomplete grade must be made up within four weeks of the end of the semester following that in which the incomplete grade was received. Work not completed by that time will be converted to the grade indicated by the instructor.

Active Learning: In addition to educational strategies such as reading, listening, and reflecting, when appropriate this class makes use of learning techniques commonly known as active learning. Students should expect to participate in

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

active learning techniques such as discussions and presentations, small group activities, writing, problem-solving, movement, case studies, role-playing, etc. These activities promote analysis, synthesis, and evaluation of class content in order to improve student learning outcomes.

Assignments/Quizzes/Clinical Paperwork: All assignments must be completed and submitted on time in the manner specified by the faculty. Students may fail the course if all assignments are not completed. Late/makeup work will not be accepted (student will receive a 0%) unless previously arranged with the instructor or impacted by extenuating circumstances.

ATTENDANCE POLICY:

The Dakota Nursing Program supports the college policy on attendance as stated in your college catalog. In addition, the nursing program implements strict attendance policies for classroom, lab and clinical experiences. Students are expected to attend all theory, lab, and clinical hours.

Regular, punctual attendance demonstrates safe and professional behavior and responsibility. In recognition of the fact that the primary learning takes place in the teacher-student relationship, the principle governing class attendance is that the student is expected to attend all regularly scheduled classes (classroom, laboratory, and clinical) and is responsible for meeting course objectives. Absence may make it impossible for a student to meet course objectives and result in failure of the course. A student may be excused from class or clinical with the approval of the instructor. It is the student's responsibility to notify the appropriate persons in a timely manner as noted in the absence procedure below and then agree on a plan to fulfill missed assignments with the appropriate faculty member. All makeup work may have a deduction in theory, lab, or clinical applications. All missed hours in lab or clinical need to be made up with an hour for each hour missed. Absences of more than four in any classroom, lab, or clinical course may result in course failure. Students who are absent from lab or clinical and do not make up the hours, will fail the course. If a student has an agreement with the nursing director to make up the hours, they may be eligible for an incomplete grade following policy at their college

Exams:

1. Notification for absence from:
 - **Exam:** Students will notify the program director/site faculty AND the lead course instructor at least 1 hour prior to an exam. "Notification" for an exam day means that the student sends an email with the appropriate information or speaks directly to the nursing instructor AND program director by telephone or in person.
 - **Theory course on a non-exam day:** Students will notify the nursing program director or site faculty at least 1 hour prior to the course start time. "Notification" for theory course day means that the student sends an email with the appropriate information or speaks directly to the program director or site faculty by telephone or in person.
 - Failure to notify the persons noted above in the time specified will result in a conference.
2. If a student is absent on an exam day, the following procedure is followed:
 - The first missed exam will result in a conference with the program director.
 - Any future missed exams will result in an unsafe behavior. Two unsafe behaviors may result in the student's dismissal from the nursing program.
 - This policy includes theory course exams, lab course exams (including math) and ATI exams.
 - The policy covers all exams in a semester. For example, if a NURS 120 course exam is the first exam missed and there is a NURS 121 exam two weeks later that is missed, then the NURS 121 exam is the second missed exam.
 - All exams must be made up within 24 hours following the missed exam, excluding weekends and

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

holidays. Extenuating circumstances will be considered, and subsequent actions will be decided by the nursing program director. The nursing program director may require documentation of extenuating circumstances.

- It is the student's responsibility to contact the nursing program nursing director to arrange a makeup exam.
- Faculty will consult with the program director regarding missed exams as they occur.

Please see the Attendance Policy in your Nursing Program Handbook for directions on how to notify faculty of and for consequences specific to being absent or tardy.

Records of Grades: The faculty strongly endorses the idea that each student is responsible for knowing his/her own academic status based on grades from learning activities. Grades are recorded in the Blackboard Grade Center. All gradebook questions must be addressed by the student to the lead instructor at midterm and then again during the week before finals. There will be no changes accepted to the gradebook regarding absent or late/missed assignments or late/missed exams during finals week. It is the student's responsibility to know what their grades are and contact the instructors or their Nursing Program Director for a plan to improve.

Guidelines for Lab Simulation: Simulation in lab is used to demonstrate and exemplify real life experiences in an interactive environment led by a facilitator that encourages critical thinking, reflection, and feedback regarding the learner's performance (NCSBN.org). Simulation in lab is intended to be a safe learning environment accompanied with constructive feedback from debriefing that the learner can take and improve upon each week. Lab simulation will incorporate learning scenarios that complement theory courses and allow for concurrent learning. Requirements for students to participate in simulation and receive a pass each week includes a completed ticket to simulation form and a positive attitude. If the student comes unprepared, they will receive a fail for the simulation. For remediation the student will need to complete the ticket to simulation, make up the simulation with assigned faculty, and complete a simulation analysis. The student will receive a conference form for the first failed simulation, an unsafe occurrence for the second and an unsafe occurrence for the third failed simulation with potential dismissal from the nursing program.

Guidelines for 2:1 Clinical Simulation: Clinical simulation allows the student to incorporate past learning experiences in a simulation environment that evaluates their performance in proving competency in learning outcomes. Students will receive a clinical performance grade as well as complete the required paperwork as assigned in the clinical simulation guidelines. The Dakota Nursing Program may use one hour of simulation to replace up to two hours of traditional clinical time to meet the learning outcomes located in the clinical course syllabus. The program director at each campus will approve how learning outcomes will be met through clinical and/or simulation.

Nursing Department Etiquette: It is expected that students will show sensitivity to their peers as well as instructors by avoiding any activity that may cause distraction during class. Incivility will not be tolerated and is an unsafe behavior. Use of mobile devices and related applications, cameras, side conversations, and children are not allowed in the classroom/lab/clinical areas.

Nursing is a profession and thus requires professional behavior. It is expected that students will act in a professional manner displaying commitment to learning in the classroom, lab, all clinical areas, all college areas, and at all times in the public (including social networking sites when representing the college or the profession of nursing.)

Professional attire and decorum are expected when attending class, lab or clinical either face-to-face or via virtual delivery. During a virtual class, the camera settings will be on at all times and microphone settings will be on/off as requested by the faculty. Students will sign in with first and last names and will sign in 5 minutes before class time so

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

faculty can take attendance. Students will be available the entire class time and will engage in the discussion or answer questions if called upon. Taking pictures or video of the other students without their consent is not allowed and considered uncivil behavior. Faculty and students will strive for an interruption free environment, refrain from driving, refraining from the use of other electronic devices, and not smoking, or eating during a virtual session.

Clinical Exclusions: Students may not:

- b. Administer medications without appropriate licensed oversight
- c. Take verbal provider orders or transcribe provider orders
- d. Administer blood or blood products
- e. Administer chemotherapy
- f. Witness consents
- g. Titrate drugs
- h. Perform skills or procedures that the student does NOT have the educational
- i. foundation to perform safely
- j. Perform any skill that is excluded by the clinical facility in regard to nursing students

Clinical Restrictions:

- a. Students are not to bring children to the clinical site or laboratory. These experiences require full attention and participation. Hazardous equipment and supplies may be accessible to children during laboratory experiences. Clinical site policies restrict children for safety reasons.
- b. Students may not leave the clinical site anytime (including during breaks) during the scheduled clinical hours; this includes visiting their car unless approved by the clinical instructor.
- c. Students may not use tobacco or e-cigarettes on breaks during clinical hours.
- d. Students will follow clinical facility policy on access to mobile devices and related applications during clinical rotations. There are no cameras allowed in a clinical facility unless used for a clinical purpose. Mobile devices including smart watches will not be accessed for any purpose unrelated to clinical. All mobile devices and related applications should be turned off, and stowed away unless they are being used for a clinical purpose.

SKILL DEMONSTRATION

Skills Practice and Skills Check-off: All students are required to practice their skills in the laboratory before they complete their skills re-demonstration. Practice time will be determined individually with the expectation that the student must be proficient in the skill before re-demonstrating it. Students must successfully demonstrate competence in performing specific skills in the laboratory before they are able to perform them in clinical. Please review the expectations for successful skill re-demonstration in your nursing student handbook.

Students are expected to be prepared to re-demonstrate the assigned skill any time during the lab on the day the re-demo is scheduled. If a student is not prepared for the skill re-demonstration, this is considered a failed skill. All failed skills will be made up outside of class with the assigned instructor. The student failing a skill must redo that demonstration until they pass but the first grade they received will be the grade for that skill. It is the student's responsibility to make an appointment and arrange a make-up date/time with the lead lab instructor on your campus within one week to demonstrate any failed skills, to demonstrate any make-up skills, or to make up a lab. Failure to do so will be considered unsafe behavior and will result in zero for the skill.

A student who fails an ADN-level skill will follow steps outlined below and will supersede the failed skill policy in the handbook which is for the PN students who have many more skills. Failure to comply with remediation of failed skills may result in an unsafe occurrence form along with a program improvement plan.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

After a failed skill the student will:

- Add rationale to each step on the checklist, submit to instructor per site specific instructions.
- Practice that skill for 90 minutes in lab (or as directed by Nursing Director).
- Record yourself completing the skill.
- Watch recorded video to ensure all steps are appropriately followed.
- Submit taped re-demonstrated skill video or re-demonstrate skill live to local faculty, per site specific instructions.

A student failing **three** nursing skills on separate days is demonstrating unsafe performance and may withdraw or may be dismissed from the program. For example, if a student fails a clinical lab skill the student and the clinical instructor will have a conference and review bullets outlined above. Faculty will make recommendations on how to improve performance. On the second failed skill on separate days, the student will receive an unsafe occurrence report. On the third failed skill on separate days, the student will receive a second unsafe occurrence report and may withdraw or may be dismissed from the program.

Note: the failed skills may be the same skill reattempted multiple times or any combination of different skills. For example: the student fails IV catheter insertion twice and blood administration once, as the third failed skill, at that point will leave the program.

Students must successfully demonstrate competence in performing specific skills in the laboratory before they are able to perform them in clinical.

Course study expectations: Commitment to learning is important to success. For every semester credit hour, you are taking in a class, three hours need to be set aside in your weekly schedule to read, study, and devote time towards your education outside of class.

For example: NURS 122 (3 credit) x 3 hours = 9 hours/week to study (minimal recommended study hours per week.)

Academic Dishonesty: Academic honesty is held in the highest regard within the Dakota Nursing Program. Academic dishonesty will be addressed following the policies outlined in your college catalog. Dishonesty may result in failure of the course and dismissal from the Dakota Nursing Program.

Student Role in Evaluation of Teaching, Course, and Program Evaluation: The Dakota Nursing Program student will evaluate faculty teaching and curriculum in the classroom, lab and clinical settings. The evaluations are an important source of information for both individual faculty and for program evaluation.

ACCOMMODATIONS:

To request academic accommodation due to a disability that may limit your ability to fully participate in this class/lab/clinical, please contact the disability services office listed for your college below. Personnel from that office will work with you and your instructor to arrange for reasonable accommodation after you have completed the registration process and it has been determined that you qualify. It is the student's responsibility to obtain the request for accommodation and provide it to the instructor and local campus nursing director.

- Bismarck State College Students: contact the Student Accessibility Office at 701.224.5671
- Dakota College at Bottineau Students: contact Disability Support Services at 701.228.5672
- Lake Region State College Students: contact the Disability Office at 701.662.1689
- Williston State College Students: contact the Accessibility and Retention Specialist at 701.774.4224

DROP AND WITHDRAW DATES CAN BE FOUND ON YOUR CAMPUS WEBSITE AT:

BSC – <http://www.bismarckstate.edu/current/records/calendarsdeadlines/>

DCB – <http://www.dakotacollege.edu/academics/academic-calendar/>

LRSC – <http://www.lrsc.edu/academics/term-schedules>

WSC – <https://www.willistonstate.edu/admissions/Cost/Important-Dates-and-Deadlines/>

If you have any questions about dropping or withdrawing from a class, please contact your campus coordinator or registrar.

ADDITIONAL INFORMATION:

All written work must be completed and turned in to the instructor prior to taking any scheduled exam. Any assignments which are not complete and turned in will result in the student failing the course with a grade of F.

Students are required to read the Dakota Nursing Program student handbook upon admission to the program and submit the signature form found in the handbook showing that the student will agree to follow the information and policies found in the handbook.

Material for this course will be posted onto the Blackboard site. It is your responsibility to check this site for assignments and notes. It is also your responsibility to know what your grade is in the course by reviewing the Blackboard gradebook.

WEB STREAMING (Yuja and Blackboard Collaborate platforms):

Yuja/Blackboard Collaborate are a lecture and content capture software chosen by the ND University System to provide that service for its 11 campuses. Yuja/Blackboard Collaborate enable faculty, students and staff to record presentations, lessons, training, an entire lecture, and more. The recorded content is searchable, provides for notetaking and participant rating of content, can be streamed live, and can be used on portable devices having internet access.

Yuja/Blackboard Collaborate integrate with most learning management systems and are ADA compliant. An instructor's lecture for the DNP is recorded and stored within a learning management system for the duration of the semester. Instructors will record lectures on Yuja/Blackboard Collaborate. Students should be aware that their voices or any presentation they do in class may be recorded on Yuja/Blackboard Collaborate and available via Blackboard for other students in their class to view. The recordings will be available for viewing for the duration of the semester. Watching the class recordings via web streaming does not usually count as attendance for class but is highly encouraged if you are unable to attend class or wish to review concepts covered in class. Please refer to attendance policy if there are any questions.

GUEST SPEAKERS:

Guest Speaker Statement: Dakota Nursing Program is committed to presenting timely, innovative educational opportunities for its students. As part of those efforts, DNP faculty may invite guest speakers to address the student members of this course. Under FERPA regulations, such guest speakers are considered volunteers who serve a legitimate educational interest to institutional services or functions. Guest speakers will be informed by the faculty member of their responsibilities under FERPA to ensure student privacy. For more information, please visit the Department of Education's FERPA Student Privacy webpage at <https://studentprivacy.ed.gov/>

FACULTY/STUDENT COMMUNICATION:

Faculty/students are responsible for checking course announcements in Blackboard, bulletin boards and/or mailboxes as appropriate at each campus for messages each class day. Email is used extensively within the Blackboard Learning Management System, students are responsible to have a working college email account and check it daily during the semester. Students, staff and faculty are expected respond to emails promptly – within 48 hours during a usual work

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

week or as requested. The purpose is to assure rapid communication between students and instructors. Students must notify the nursing coordinator if their email address changes.

Faculty and students must identify themselves professionally with each contact (mail, email, or telephone). This includes first and last name as well as identification of location within the consortium.

Example of student identification at end of each email:

Joan Miller

DCB – Minot

Communication between students and faculty should remain on a professional level with no questionable jokes, cartoons, etc. transmitted. Students using the institution's computer labs are reminded that they cannot download information onto the computer hard drives. Any information must be stored on an alternate drive.
