

Bottineau Community Rocks!

Tuesday, April 29th

6:00—7:00 pm

DCB Campus at Thatcher Hall
Alumni Conference Room

Come join us for this FREE event on the Dakota College of Bottineau Campus. Bottineau Community Rocks! is a community and family event for those interested in learning more about geology, minerals, fossils, crystals and more!

We meet once a month in the Alumni Conference Room in Thatcher to hear presentations and speakers, hear of exciting news in the geology realm, discuss our experiences and rockhounding tales, and share the love of geology.

Our April topic is:

The Fascinating Science of Crystals

This month, we'll explore the fascinating world of crystal formation and why different minerals form in different shapes. We'll explore some of the world's largest crystals, get hands-on with a variety of minerals in crystal form, show how you can grow your own and talk about how Hollywood uses this science in their movies! Come ready to explore the fascinating world of Crystals!

Sponsored by—DCB Community Education and Bottineau Community Rockhounds
