

Course Prefix/Number/Title: EMS 210 - Pre-hospital Pharmacology

Number of Credits: 2 credits

Course Description: This course introduces the paramedic student to medications used in the prehospital setting that are focused on mechanism of action, indications, contraindications, dosing and correct administration are discussed in this class. This course also introduces the paramedic student to the proper techniques of preparing for, starting and managing and IV site, drug dose calculations and IV therapy. Students will be introduced to the autonomic nervous system and its functions.

Teaching-learning methods in this course may include, but are not limited to, assigned readings, independent studies, presentations, discussion, critical thinking exercises, labs, clinical, and class activities.

Pre-/Co-requisites: EMS 208

Course Objectives: To integrate complex knowledge of medications and drug calculations. To understand indications, contraindications, side effects, and dosage and routes of emergency medications for patients of all ages. To understand IV therapy and the types of fluids and how they play a role in maintaining a fluid balance in the human body. To understand aseptic techniques, how IV equipment works and proper application and fluid administration. To understand the anatomy and physiology of the autonomic nervous system, comparing its actions.

Instructor: Wayne Fahy & Mary Jund

Office: Trinity Riverside, 1900 8th Ave SE Minot ND

Office Hours: By appointment.

Phone: Wayne Fahy: 701-693-6194

Mary Jund: 701-858-6308

Email: Wayne Fahy: wayne.fahy@dakotacollege.edu

Mary Jund: mary.jund@dakotacollege.edu

Lecture/Lab Schedule: Monday and Thursday from 6:15-10:15 PM. Friday from 9:00 AM to 4:00 PM.

See class schedule.

Textbook(s): Bledsoe, B., Porter, R., Cherry, R. (2017). Bledsoe's Paramedic Care Principles and Practice Volumes 1 & 2, 6th Edition. Hoboken, NJ: Brady Books. Pharmacology for Paramedic Students – Open resource publication. Other materials provided by instructors.

Course Requirements: Students will be required to attend class and complete assignments in MyBradyLab and exams in EMStesting on time. Final exams will be worth 40%, additional tests 20%, quizzes 5%, homework 5%, clinical/lab 20% and affective behavior 10%. All final course grades will be calculated on a weighted grading system. See Clinical/Lab rubric on page 3.

Students will also be required to meet portfolio requirements (where applicable). Please see DCB Paramedic Handbook for full grading and course requirements.

Tentative Course Outline: Paramedic Care Principles and Practice Volumes 1 & 2, 6th Edition. Vol. 1, Ch. 21. Pharmacology for Paramedic Students – open resource publication.

TOPIC - CLASSROOM

Chapter 19 Pathophysiology

Chapter 20 Emergency Pharmacology

Chapter 21 Principles and Routes of Medication Administration – Part 1

Intravenous Access, Blood Sampling, and Intraosseous Infusion – Part 2

Medical Mathematics – Part 3

Chapters 1-4 Pharmacology for Paramedic Students

Renin-Angiotensin-Aldosterone System Paper (3 pages)

Due Date: EMS 210 Final Test date.

TOPIC - LAB

See Platinum Planner Student Minimum Requirements

Course objectives details to be covered according to the EMS National Standards instructional guidelines.

General Education Competency/Learning Outcome(s) <u>OR</u> CTE Competency/Department Learning Outcome(s): Students will apply knowledge gained in the didactic component of the program to achieve a minimum of 70% proficiency in all of the following curricular levels of EMS Testing exams: 1) airway management, 2) medicine, 3) EMS operations, 4) assessment, 5) preparatory, 6) special patient populations and 7) shock/resuscitation/trauma.

Relationship to Campus Theme: The goal of the Paramedic Program is to prepare professionals to work in the emergency medical services industry. The Paramedic Program is committed to a hands-on learning environment and uses field experiences and emerging technologies in emergency medical services as common instructional techniques.

Classroom Policies: Dakota College at Bottineau Paramedic Program guides.

Student Email Policy: Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the Campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity: According to the DCB Student Handbook, students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles, and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred. The Code detailed in the Academic Honesty/Dishonesty section of the Student Handbook will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

Disabilities or Special Needs: Students with disabilities or special needs (academic or otherwise) are encouraged to contact the instructor and Disability Support Services within the first two weeks of the semester to line up accommodations.

Title IX: Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX Webpage.

AI Student Policy:

Unless otherwise indicated in the course syllabus, or in individual instructions for course assignments, or in the absence of the express consent of the course instructor, students are not allowed to utilize generative AI to help produce any of their academic work. Any violation of this policy will be considered an act of academic dishonesty as outlined within the Dakota College Code of Student Life.

RESPONSIBILITIES

RESPONSIBILITIES	<u> </u>
Students	 Responsible to follow the syllabus and assignment instructions regarding use of generative AI for all academic work. Obtain permission of the instructor prior to the use of generative AI that is outside of the syllabus or assignment instructions. Provide appropriate rationale for how the use of generative AI will enhance the learning experience for the assignment. In instances where generative AI is permissible, appropriately cite the generative AI program used and indicate where in the assignment it was used, in a brief submission statement.
Faculty	 Determine if the use of generative AI could enhance student learning in any assignment of project. Clearly indicate in all course syllabi if generative AI is allowable for any academic work. If allowable, give specific parameters for how and when generative AI may be used. If a violation of generative AI for the individual course/syllabus is suspected, discuss the concern with the student. If violation is still suspected, inform the appropriate semester coordinator/program director.
