

# Bottineau Community Rocks!

Tuesday, October 21

6:00—7:00 pm

DCB Campus at Thatcher Hall

*Alumni Conference Room*

Come join us for this FREE event on the Dakota College of Bottineau Campus. Bottineau Community Rocks! is a community and family event for those interested in learning more about geology, minerals, fossils, crystals and more!

We meet once a month in the Alumni Conference Room in Thatcher to hear presentations and speakers, hear of exciting news in the geology realm, discuss our experiences and rockhounding tales, and share the love of geology.

Our October topic is:

## **Toxic Treasures**

This month we explore the darker side of geology with minerals that are as dangerous as they are beautiful. Nature has created stunning specimens that pack a poisonous punch. Join us for this special Halloween-themed event where you'll discover which rocks you should admire from a distance and learn why some of Earth's most gorgeous minerals are also its most hazardous.

Sponsored by—DCB Community Education and Bottineau Community Rockhounds
