

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

NURS 120 Syllabus - Fall 2025

COURSE: NURS 120: Foundations of Nursing

CREDIT HOURS: 2 semester hours (Didactic course – 32 hours in the classroom)

COURSE DESCRIPTION:

Develop an understanding of the multidimensional base of nursing knowledge, including basic human needs, nursing process, nursing judgment, ethical and professional, health promotion and disease prevention concepts. Gain an understanding of the role of the nurse within the interdisciplinary team, the vital importance of communication while providing safe and quality client care, and how nurses use evidence-based information in their practice.

MEETING TIME and INSTRUCTOR:

AM Section I & 3 T and R 1100-1150

BSC-Bismarck A, BSC-Hazen, & DCB-Valley City
LRSC-Devils Lake, LRSC-Grand Forks, & DCB -Minot

PM Section 2 & 4 T and R 1500-1550

BSC-Bismarck B, BSC-Garrison, BSC-Hettinger & DCB Bottineau
Williston, LRSC- MV, & WSC Watford City, WSC Sidney

Abby Wisham, MSN, RN

Assistant Professor
Bismarck State College
HSC 109B 1133 College Drive
Bismarck, ND 58501
Office Phone: (701) 224-2431
Office Hours: email or call for an appointment abby.wisham@bismarckstate.edu

PREREQUISITES: Admission to Dakota Nursing Program, Practical Nursing Certificate

COREQUISITE(s): NURS 121 Practical Nursing I
NURS 122 Clinical Practice I

REQUIRED TEXTBOOKS:

1. Assessment Technologies Institute (ATI) Review Package and Skills Modules for PN students. (2025)
2. Burton, M., & Smith, D. (2023). *Fundamentals of Nursing Care, Concepts, Connections, and Skills*, (4th ed.). F. A. Davis Company. Philadelphia, PA (Text and eBook with Advantage)
3. Nursing Central by *Unbound Medicine* (includes *Davis Drug Guide* and *Davis Lab Guide*) (2025)
4. Silvestri, L.A., & Silvestri, A., (2024) *Saunders Comprehensive Review for the NCLEX-PN* (9th ed.) St. Louis, MO: Elsevier

OPTIONAL REFERENCE:

1. Swearingen, P. L., & Wright, J. D. (Eds.). (2023). *Swearingen's All-In-One Nursing Care Planning Resource: Medical-surgical, pediatric, maternity, and psychiatric-mental health* (6th ed.). Elsevier

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

SPECIAL TECHNOLOGY UTILIZED BY STUDENTS:

Requirements for each student in this course include-

1. Microphone: any microphone, either internal or external
2. Webcam: 320×240 VGA resolution (minimum) internal or external
 - a. Students will be attending class, meetings, and making recordings so the microphone and webcam need to be in good working order.
3. Desktop or laptop computer. Do not use Google Chromebooks/Microsoft Surface/Android tablet/iPad as they are not supported in all testing environments and in some of the online activities.
4. Printer (optional, for class handouts)
5. Reliable, high-speed internet
6. Desktop Browser – use Google Chrome, Safari, or Mozilla Firefox
7. Access to word processing software that can produce, reading, and saving files in the following formats: .doc, .docx, .pdf, .htm, .html, .rtf, .ppt, .pptx
8. Access to Adobe Acrobat Reader® to open PDF files that are used during the course.
9. Log into the LMS Blackboard daily to keep abreast of course announcements, weekly content, and Grade Center.
10. Successfully navigate and adhere to technology requirements for all instructional platforms utilized in the course.
11. ATI technical requirements: <https://www.atitesting.com/technical-requirements>
12. Blackboard browser support: https://help.blackboard.com/Learn/Student/Ultra/Getting_Started/Browser_Support

PROGRAM AND COURSE SLOS CORRELATED TO LEARNING ACTIVITIES AND EVALUATION METHODS:

NURS 120: Foundations of Nursing			
Program Student Learner Outcomes (SLOs)	NURS 120 Course Student Learner Outcomes (SLOs)	Learning Activities	Course SLO Evaluation
TEAMWORK AND COMMUNICATION: Participate as a member of the interdisciplinary health care team through effective communication in the delivery and management of client care.	1. Define effective communication techniques used within interdisciplinary healthcare teams when communicating with appropriate team members. 2. Identify the roles and responsibilities of the members of the interdisciplinary healthcare team.	- Assigned reading - Lecture/Classroom discussion and Activities - Case Study: Ethic, cultural and spiritual aspects of care - Assignment: End of life activity	- Quizzes - Exams
PROFESSIONALISM AND LEADERSHIP: Incorporate professional standards and scope of practice as a certificate practical nurse while pursuing professional growth within legal, ethical and regulatory	3. Describe the legal and ethical considerations and the role of the nurse. 4. Identify how professional standards, scope of practice, and social forces affecting nursing apply to nursing practice within the healthcare delivery system.	- Assigned reading - Lecture/Classroom discussion and activities - End of life Activity - Assignment: Reflection on Historical Figures in Nursing	- Quizzes - Exams - Assignment: Reflection on Historical Figures in Nursing

Below 68 = F

- **There will be no rounding up of grades.**
- **There is no extra credit offered.**
- **Final exams will not be given early. Plan to be in school until the final day.**

NCLEX REVIEW PROGRAM NURSING REVIEW PROGRAM:

The Dakota Nursing Program requires students to purchase and complete an ATI Nursing Review Program. This program is complete with review modules (Books or eBooks, Skills Modules, Online Practice (non-proctored) Assessments, and Proctored Assessments). Please review the complete ATI policy in your student handbook for preparation policy, remediation policy, and grading levels.

GRADING:

Course and clinical grades are based on various activities and assignments designated by the faculty. The criteria by which grades for each theory and clinical course are determined are included in course syllabi distributed to students. Students have access to and should review the learning management system grading calculation method.

Students are responsible for knowing what their grades are during the course. Please review the gradebook frequently. If an assignment or exam in the student's gradebook says the assignment or exam has not been submitted or has not been entered, it is then treated as a fact that the student did not do the assignment or exam unless the student has written proof that they did in fact complete and submit such assignment/exam as outlined in the directions. Make sure your assignments are submitted well before the due date to ensure timely submission.

Please see your Dakota Nursing Student handbook for the exam and review/remediation procedure, attendance policies, and grading policies in addition to the information listed below.

Grades: Grades are given for both theory classes and clinical performance of clinical nursing courses. Students must earn a minimum grade of C with a maintained 2.5 GPA or better in all required program courses. Students who fail a theory or clinical course will be dismissed from the nursing program. Students who receive a D or F in a theory or clinical course will be dismissed from the nursing program. Whenever a student has unsatisfactory grades during the semester, they should contact the instructor for guidance.

Incomplete Grades: Incomplete grades will be given to a student only when extreme circumstances have prevented the student from completing all work by the end of the term and will be given at the discretion of the faculty as written in the student's home campus college catalog. An incomplete grade must be made up within four weeks of the end of the semester following that in which the incomplete grade was received. Work not completed by that time will be converted to the grade indicated by the instructor.

Active Learning: In addition to educational strategies such as reading, listening, and reflecting, when appropriate this class makes use of learning techniques commonly known as active learning. Students should expect to participate in active learning techniques such as discussions and presentations, small group activities, writing, problem-solving, movement, case studies, role-playing, etc. These activities promote analysis, synthesis, and evaluation of class content to improve student learning outcomes.

Artificial Intelligence:

Artificial Intelligence (AI) programs such as Microsoft Co-Pilot, may be required in nursing courses to help

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

generate ideas and develop skills in using AI tools. Do not use AI unless it is specifically required in your assignment directions. Your college plagiarism policy will be followed if AI is not used in an ethical, transparent manner.

AI is a tool; it does not replace your critical thinking skills. It should give you ideas that you would then verify against other reliable sources. You would then paraphrase that material in your own words and cite the reliable source.

Note that material generated by AI programs is often inaccurate and incomplete. Do not trust what AI says unless you can back it up with a credible source. Note that material generated by an AI program may change each time you access that URL. Generative AI is not a reputable source.

Assignments/Quizzes/Clinical Paperwork: All assignments must be completed and submitted on time in the manner specified by the faculty. Students may fail the course if all assignments are not completed. Late/makeup work will not be accepted (student will receive a 0%) unless previously arranged with the instructor or impacted by extenuating circumstances.

Progressive Deductions:

If a student consistently disregards feedback or fails to improve on their paperwork, the instructor may apply progressive deductions. These deductions could escalate with each infraction. This is to encourage students to engage more actively in their learning process.

Attendance Policy:

Purpose:

The Dakota Nursing Program adheres to the college attendance policy outlined in the college catalog. In addition, the program enforces strict attendance policies for classroom, lab, and clinical experiences to ensure students meet course objectives and demonstrate professional responsibility. Consistent attendance is critical to developing the skills necessary for safe and competent nursing practice.

Attendance Expectations:

Students are expected to attend all theory, lab, and clinical sessions. Regular and punctual attendance is required, as absences may make it impossible for a student to meet course objectives, potentially leading to course failure. Regular, punctual attendance demonstrates safe and professional behavior and responsibility.

Please carefully review the “Attendance Policy” as stated in your DNP Nursing Student Handbook.

Exams: If a student does not complete an exam as scheduled, they will receive a 25% deduction unless previously arranged with the instructor. A 50% deduction will be implemented for second missed exam in that course. The student is required to take a missed exam within 24 hours or as arranged with the instructor for extenuating circumstances. If it is not completed, then a score of 0 is obtained.

Please carefully review the Information on exams in the “Attendance Policy” as stated in your DNP Nursing Student Handbook.

Review of Exams

1. Exam blueprints will be available for students.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

2. Test scores (except for math scores, which are immediately available) will be available to the students when the faculty completes the exam analysis. The questions and answers will not be available to the students after the exam. The faculty at the local site will hold a review for course exams.

Remediation of Exams

1. Students who score below 76% on an exam must complete a DNP Post Exam Reflection Form and attend a scheduled exam review session with the program administrator or a designated representative. Students are prohibited from recording, taking notes, or photographing exam content during the review. The completed exam remediation form must be submitted to the exam review facilitator.
2. The student is responsible for completing the remediation process. Failure to attend the scheduled exam review or to complete the required remediation will result in the issuance of a conference form.
3. Math remediation differs from the procedure above and is detailed in this handbook in the Math Guidelines area under Math Remediation.

Student Responsibilities

If a student has concerns after reviewing an exam, the following process must be followed:

1. The student contacts the instructor via email with any general concerns/questions.
2. Adjustments to examinations can be made at the discretion of the instructor. The instructor will notify the students of their decision.
3. The student is responsible for keeping silent about the exam content until all sites have taken the exam. This means there is to be no talking or writing about the exam with another student. If a student discusses or gives answers to a student who has not taken the exam, this will be viewed as cheating, (academic dishonesty).
4. Only students with documented disabilities who have been evaluated and approved by Student Support Services or designated department on each campus will be provided with testing accommodations

Records of Grades: The faculty strongly endorses the idea that each student is responsible for knowing his/her own academic status based on grades from learning activities. Grades are recorded in the Blackboard Grade Center. All gradebook questions must be addressed by the student to the lead instructor at midterm and then again during the week before finals. There will be no changes accepted to the gradebook regarding absent or late/missed assignments or late/missed exams during finals week. It is the student's responsibility to know what their grades are and contact the instructors or their Nursing Program Director for a plan to improve.

Nursing Department Etiquette: It is expected that students will show sensitivity to their peers as well as instructors by avoiding any activity that may cause distraction during class. Incivility will not be tolerated and is an unsafe behavior. Use of mobile devices and related applications, cameras, side conversations, and children are not allowed in the classroom.

Nursing is a profession and thus requires professional behavior. It is expected that students will act in a professional manner displaying commitment to learning in the classroom, lab, all clinical areas, all college areas, and always in public (including social networking sites when representing the college or the profession of nursing.)

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

Professional attire and decorum are expected when attending class, lab or clinical either face-to-face or via virtual delivery. During a virtual class, the camera settings will be always on, and microphone settings will be on/off as requested by the faculty. Students will sign in with first and last names and will sign in 5 minutes before class time so faculty can take attendance. Students will be available the entire class-time and will engage in discussion or answer questions if called upon. Taking pictures or videos of the other students without their consent is not allowed and is considered uncivil behavior. Faculty and students will strive for an interruption free environment, refrain from driving, refrain from the use of other electronic devices, and not smoking or eating during a virtual session.

Course study expectations: Commitment to learning is important to success. For every semester credit hour you are taking in a class, three hours need to be set aside in your weekly schedule to read, study, and devote time to your education outside of class.

For example: NURS 120 (2 credits) x 3 hours = 6 hours/week to study (minimal recommended study hours per week.)

Academic Dishonesty: Academic honesty is held in the highest regard within the Dakota Nursing Program. Academic dishonesty will be addressed following the policies outlined in your college catalog. Dishonesty may result in failure of the course and dismissal from the Dakota Nursing Program.

Student Role in Evaluation of Teaching, Course, and Program Evaluation: The Dakota Nursing Program student will evaluate faculty teaching and curriculum in the classroom, lab, and clinical settings. Evaluations are an important source of information for both individual faculty and for program evaluation.

ACCOMMODATION:

To request academic accommodation due to a disability that may limit your ability to fully participate in a class/lab/clinical, please contact the accessibility or disability services office at your college. Personnel from that office will work with you and your instructor to arrange for reasonable accommodation after you have completed the registration process and it has been determined that you qualify. It is the student's responsibility to obtain the request for accommodation and provide it to the instructor and local campus nursing director. An accommodation must be renewed through the accessibility or disability services office and the course faculty every semester.

- Bismarck State College Students: contact the Student Accessibility Office at 701.224.2496
- Dakota College at Bottineau Students: contact Disability Support Services Coordinator at 701.228.5425
- Lake Region State College Students: contact the Counselor/Disability Services at 701.662.1546
- Williston State College Students: contact the Accessibility and Retention Specialist at 701.774.4224

DROP AND WITHDRAW DATES CAN BE FOUND ON YOUR CAMPUS WEBSITE AT:

WSC – <https://www.willistonstate.edu/admissions/Cost/Important-Dates-and-Deadlines/>

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

If you have any questions about dropping or withdrawing from a class, please contact your campus nursing director or registrar.

ADDITIONAL INFORMATION:

All written work must be completed and turned into the instructor prior to taking any scheduled exam. Any assignments which are not complete and turned in will result in the student failing the course with a grade of F.

Students must read the Dakota Nursing Program student handbook upon admission and submit the signature form showing that the student will agree to follow the information and policies found in the handbook.

Material for this course will be posted onto the Blackboard site. It is your responsibility to check this site for assignments and notes. You are also responsible for knowing your course grade by reviewing the Blackboard gradebook.

WEB STREAMING (Yuja and Blackboard Collaborate platforms):

Yuja/Blackboard Collaborate are lecture and content capture software chosen by the ND University System to provide that service for its 11 campuses. Yuja/Blackboard Collaborate enables faculty, students, and staff to record presentations, lessons, training, an entire lecture, and more. The recorded content is searchable, provides for notetaking and participant rating of content, can be streamed live, and can be used on portable devices having internet access. Yuja/Blackboard Collaborate integrate with most learning management systems and are ADA compliant. An instructor's lecture for the DNP is recorded and stored in the learning management system for the semester. Instructors will record lectures on Yuja/Blackboard Collaborate. Students should be aware that their voices or any presentation they do in class may be recorded on Yuja/Blackboard Collaborate and available via Blackboard for other students in their class to view. The recordings will be available for viewing for the semester. Watching the class recordings via web streaming does not usually count as attendance for class but is highly encouraged if you are unable to attend class or wish to review concepts covered in class. Please refer to attendance policy if there are any questions.

GUEST SPEAKERS:

Guest Speaker Statement: Dakota Nursing Program is committed to presenting timely, innovative educational opportunities for its students. As part of those efforts, DNP faculty may invite guest speakers to address the student members of this course. Under FERPA (Family Educational Rights and Privacy Act) regulations, such guest speakers are considered volunteers who serve a legitimate educational interest to institutional services or functions. For more information, please visit the Department of Education's FERPA Student Privacy webpage at <https://studentprivacy.ed.gov/>

FACULTY/STUDENT COMMUNICATION:

Faculty/students are responsible for checking course announcements in Blackboard, bulletin boards and/or mailboxes as appropriate at each campus for messages each class day. Email is used extensively within the Blackboard Learning Management System; students are responsible for having a working college email account and checking it daily during the semester. Students, staff, and faculty are expected to respond to emails promptly – within 48 hours during a usual work week or as requested. The purpose is to ensure rapid communication between students and instructors. Students must notify the nursing coordinator if their email address changes.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

Faculty and students will identify professionally with each contact (mail, email, or telephone). This **includes first and last name and identification of location within the consortium.**

Example of student identification at end of each email:

Joan Miller
PN Student
DCB – Minot

[Create and add an email signature in Outlook - Microsoft Support](#)

Communication between students and faculty should remain on a professional level with no questionable jokes, cartoons, etc. transmitted. Students using the institution's computer labs are reminded that they cannot download information onto the computer hard drives. Any information must be stored on an alternate drive.

Nursing Course Syllabi Addendum

Relationship to Campus Focus:

The Dakota Nursing Program is designed to prepare students to meet the needs of communities by enhancing professional advancement, utilizing technology, and integrating quality and safety competencies. Each course within the program serves as a foundation for evidence-based decision-making and preparation for practice in the nursing profession.

Student Email Policy:

Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the Campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity:

According to the DCB Student Handbook, students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles, and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred. The Code detailed in the Academic Honesty/Dishonesty section of the Student Handbook will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

Disabilities or Special Needs:

Students with disabilities or special needs (academic or otherwise) are encouraged to contact the instructor and Disability Support Services.

Title IX:

Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX webpage.

Tenative Course Outline:

A tentative course outline is available on each courses' BlackBoard page and a printed copy is given to students at semester start.

AI Student Policy:

Unless otherwise indicated in the course syllabus, or in individual instructions for course assignments, or in the absence of the express consent of the course instructor, students are not allowed to utilize generative AI to help produce any of their academic work. Any violation of this policy will be considered an act of academic dishonesty as outlined within the Dakota College Code of Student Life.

RESPONSIBILITIES

Students	• Responsible to follow the syllabus and assignment instructions regarding use of generative AI for all academic work. • Obtain permission of the instructor prior to the use of generative AI that is outside of the syllabus or assignment instructions. Provide appropriate rationale for how the use of generative AI will enhance the learning experience for the assignment. • In instances where generative AI is permissible, appropriately cite the generative AI program used and indicate where in the assignment it was used, in a brief submission statement.
Faculty	• Determine if the use of generative AI could enhance student learning in any assignment or project. • Clearly indicate in all course syllabi if generative AI is allowable for any academic work. • If allowable, give specific parameters for how and when generative AI may be used. • If a violation of generative AI for the individual course/syllabus is suspected, discuss the concern with the student. If violation is still suspected, inform the appropriate semester coordinator/program director.
