

# Bottineau Community Rocks!

Tuesday, January 27

6:00—7:00 pm

DCB Campus at Thatcher Hall

*Alumni Conference Room*

Come join us for this FREE event on the Dakota College of Bottineau Campus. Bottineau Community Rocks! is a community and family event for those interested in learning more about geology, minerals, fossils, crystals and more!

We meet once a month in the Alumni Conference Room in Thatcher to hear presentations and speakers, hear of exciting news in the geology realm, discuss our experiences and rockhounding tales, and share the love of geology.

Our January topic is:

## **Nature's Treasure Boxes— Geodes!**

This month we explore nature's little surprise packages—plain looking rocks on the outside with stunning crystal formations within. Geodes can be found all around the world and come in all sorts of colors, shapes, and sizes. Come explore the hidden world inside these beauties, learn about locations, and how best to open your very own mini-crystal cave of wonders.

Sponsored by—DCB Community Education and Bottineau Community Rockhounds
