

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

NURS 122 Syllabus - Fall 2021

COURSE: NURS 122: Clinical Practice I

CREDIT HOURS: 3 semester hours (144 lab/clinical Hours)
(1 credit of lab/clinical course = 3 contact hours = 9 hours per week)

COURSE DESCRIPTION:

Apply the social, biological, behavioral and nursing science principles to simulated and actual client care in the nursing lab and during clinical in health care facilities. Students will see, practice and perform demonstrations of basic nursing skills and procedures in a supervised setting. Includes the study of math and medical terminology and use of the nursing process and critical thinking skills to organize and provide safe and effective client care.

MEETING TIME:

Section I and II Lab/Clinical times (9 hours per week) per site schedule

INSTRUCTORS: *See local site lab/clinical schedules for the Clinical Instructors at your location.*

Melissa Moser, MSN, RN, CNEcl

Assistant Professor of Nursing

Lake Region State College

1801 College Drive North

Devils Lake, ND 58301

PREREQUISITES: Admission to Dakota Nursing Program, Practical Nursing Certificate

COREQUISITE(s): NURS 120 Foundations of Nursing
NURS 121 Practical Nursing I

REQUIRED TEXTBOOKS:

1. Ackley, B. J., Ladwig, G. B., Makic, M. B., Martinez-Kratz, M., Zanoliti, M. (2020). *Nursing Diagnosis Handbook*. (12th ed.). St. Louis: Elsevier.
2. Assessment Technologies Institute (ATI) Review Package and Skills Modules for PN students.
3. Burton, M. A. & Ludwig, L. J., Smith, D. W., (2019). *Fundamentals of nursing care concepts, connections and skills* (3rd ed.). Philadelphia, PA: F. A. Davis (Text and Study Guide)
4. Horntvedt, T. (2019). *Calculating dosages safely: A dimensional analysis approach*. (2nd ed.). Philadelphia, PA: FA Davis.
5. Silvestri, L.A., & Silvestri, A., (2022) *Saunders Comprehensive Review for the NCLEX-PN* (8th ed.) St. Louis, MO: Elsevier
6. Thompson, J.M. (2018). *Essential Health Assessment*, Philadelphia, PA: F.A. Davis.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

7. Nursing Central by *Unbound Medicine* - includes *Davis Drug Guide* and *Davis Lab guide*

SPECIAL TECHNOLOGY UTILIZED BY STUDENTS:

Requirements for each student in this course include:

1. Microphone: any microphone, either internal or external
2. Webcam: 320x240 VGA resolution (minimum) internal or external
3. Desktop or laptop computer
4. Printer (optional, for class handouts)
5. Reliable, high-speed internet
6. Access to word processing software that can produce, reading, and saving files in the following formats: **.doc, .docx, .pdf, .htm, .html, .rtf, .ppt, .pptx**
7. Access to Adobe Acrobat Reader © to open PDF files that are used during the course.
8. Log into the LMS Blackboard daily to keep abreast of course announcements, weekly content, and Grade Center.
9. Successfully navigate course Discussion Forums, Respondus Lockdown Browser, Blackboard Collaborate Ultra, Yuja/Blackboard Collaborate Proctor, and Yuja/Blackboard Collaborate.
10. Successfully install and navigate Microsoft Teams or Zoom on personal smartphone.
11. Adhere to technology requirements for all instructional platforms utilized in the course.

PROGRAM AND COURSE SLOS CORRELATED TO LEARNING ACTIVITIES AND EVALUATION METHODS:

NURS 122: Clinical Practice I			
Program Student Learner Outcomes (SLOs)	NURS 122 Course Student Learner Outcomes (SLOs)	Learning Activities	Course SLO Evaluation
<p>TEAMWORK AND COMMUNICATION: Participate as a member of the interdisciplinary health care team through effective communication in the delivery and management of client care.</p>	<p>1. Recognize effective verbal and written communication skills used as a member of the interdisciplinary healthcare team.</p>	<ul style="list-style-type: none"> • Assigned reading • YuJa lecture • Proctored exams • Lab skills weekly • QSEN lesson • Working with classmates during practice and check-off of skills. • Active learning lessons 	<ul style="list-style-type: none"> • Proctored exams 4, 8, 12, & 16 for Lab foundations. • Grading Rubric for lab skills and clinical • Active learning lessons plans
<p>PROFESSIONALISM AND LEADERSHIP: Incorporate professional standards and scope of practice as a certificate practical nurse while pursuing professional growth within legal, ethical and regulatory frameworks.</p>	<p>2. Demonstrate safe and appropriate client care as a beginning nursing student within the ethical and legal framework of the nursing profession.</p> <p>3. Describe values, beliefs, and attitudes related to health and wellness.</p> <p>4. Identifies management and delegation competencies performed in the role of the LPN.</p>	<ul style="list-style-type: none"> • Assigned reading • YuJa lecture • Proctored exams • Lab skills weekly • NAPNES Standards of Practice and Educational competencies of graduates of PN/VN nursing Programs • NDBON and National Federation of Licensed Practical nurses 	<ul style="list-style-type: none"> • Proctored exams 4, 8, 12, & 16 for Lab foundations. • Grading Rubric for lab skills and clinical
<p>CLIENT-CENTERED CARE: Provide culturally competent care for clients while promoting their self-determination and integrity.</p>	<p>5. Identifies caring behaviors, therapeutic communication skills and barriers to communication.</p> <p>6. Demonstrate competence in basic nursing and basic assessment skills with respect to lifestyle choices,</p>	<ul style="list-style-type: none"> • Assigned reading • YuJa lecture • Proctored exams • Lab skills weekly • QSEN lesson • Active learning lessons 	<ul style="list-style-type: none"> • Proctored exams 4, 8, 12, & 16 for Lab foundations. • Grading Rubric for lab skills and clinical

<p>QUALITY IMPROVEMENT AND SAFETY: Employ evidence-based decision making to deliver safe and effective client care and to evaluate client outcomes.</p>	<p>9. Demonstrates safety and competency in basic nursing skills, interventions, and calculating drug dosages, safely preparing, administrating, and monitoring medications.</p> <p>10. Recognize potential/actual patient complications and need for appropriate response.</p>	<ul style="list-style-type: none"> Assigned reading YuJa lecture Proctored exams Lab skills weekly National Patient Safety Goal QSEN lesson NAPNES Standards of Practice and Educational competencies of graduates of PN/VN nursing Programs NDBON and National Federation of Licensed Practical nurses Active learning lessons 	<ul style="list-style-type: none"> Weekly math quizzes and Math exams on week 7 & 14 Proctored exams 4, 8, 12, & 16 for Lab foundations. Grading Rubric for lab skills and clinical Active learning lessons plans
<p>INFORMATICS: Utilize appropriate technology to communicate effectively and manage information in the delivery of client care.</p>	<p>11. Retrieves documents and maintains confidentiality of information related to client care.</p>	<ul style="list-style-type: none"> Assigned reading YuJa lecture Proctored exams Lab skills weekly QSEN lesson documentation with lab skills Active learning lessons plans Assigned Study guide weekly 	<ul style="list-style-type: none"> Proctored exams 4, 8, 12, & 16 for Lab foundations. Grading Rubric for lab skills and clinical Documenting after all skill check offs Active learning lessons plans Study guide documentation in each chapter that is assigned.

GRADE BREAKDOWN:	Lab skills, math quizzes, Lab assignments	60%
	Lab and Math Exams	40%
		100%

GRADING POLICY:

The following grading scale is used:

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

92.0	-	100.00	= A
84.0	-	91.99	= B
76.0	-	83.99	= C
68.0	-	75.99	= D
Below 68			= F

There will be no rounding up of grades during the semester.

There is no extra credit offered.

Final exams will not be given early. Plan on being in school until the final day.

EXAM REMEDIATION (2021-2022 DNP Student Handbook, p. 36-37):

Math Remediation Policy

1. Proctored Quizzes

- a. The purpose of the proctored math quizzes is to prepare the student to successfully complete math exams.
- b. If a math quiz score is less than 90%, students will remediate.
 - i. Students have two proctored remediation attempts to score 90% or greater on quizzes.
 - ii. Proctored remediation needs to be successfully completed one week from the proctored quiz date.
 - iii. After the second unsatisfactory proctored remediation (<90%) the student meets with faculty and an unsafe occurrence form may be initiated along with a program improvement plan if the student is not showing initiative and effort in the remediation process.
 - iv. Student may be required to make appointment with a math tutor.
- c. If a student's score is at a very low level (60% or below) on a quiz, **the student** is responsible to contact a lab instructor to set up a meeting for individual directions on following the remediation process as outlined above.

2. Exams

- a. The purpose of the math exams is for the student to show competence in the math aspect of medication administration as a part of safe nursing practice.
- b. If a math exam score is less than 90%, students will remediate.
 - i. Students have two proctored remediation attempts to score 90% or greater on exams.
 - ii. Remediation needs to be successfully completed one week from the proctored exam date.
 - iii. If the student fails to pass the first remediation attempt, an unsafe occurrence along with a program improvement plan will be initiated.
 - iv. If the student fails to pass a math competency exam after three attempts (original exam and two remediation attempts), or does not adhere to the remediation process, failure of the clinical course may result.
- c. The score of the original exam will be the documented gradebook score.

GRADING:

Course and clinical grades are based on a variety of activities and assignments designated by the faculty. The criteria by which grades for each theory and clinical course are determined are included in course syllabi distributed to students. Students have access to and should review the learning management system grading calculation method.

Students are responsible to know what their grades are during the course. Please review the gradebook

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

frequently. If an assignment or exam in the student's gradebook says the assignment or exam has not been submitted or has not been entered, it is then treated as a fact that the student did not do the assignment or exam unless the student has written proof that they did in fact complete and submit such assignment/exam as outlined in the directions. Make sure your assignments are submitted well before the due date to ensure timely submission.

Please see your Dakota Nursing Student handbook for grading policies in addition to the policies listed below.

Grades: Grades are given for both theory classes and clinical performance of clinical nursing courses. Students must earn a minimum grade of "C" with a maintained 2.5 GPA or better in all required courses of the program. Students who fail a theory or clinical course will be dismissed from the nursing program. A final grade of D or F is considered to be a failed grade. Any time a student has unsatisfactory averages, he/she should contact the instructor for guidance.

Clinical Grades: Grades are awarded in clinical courses based on the student's ability to apply knowledge and skill to client care, to meet the clinical objectives for the course, and to give safe, reliable nursing care. The clinical instructor evaluates student performance after every clinical experience. Periodic written evaluations on student progress will be individually reviewed and signed by each student during student evaluation sessions. Responsible members of the health team may also contribute their observations of students' performance to be added to the evaluation of students.

Active Learning: In addition to educational strategies such as reading, listening, and reflecting, when appropriate this class makes use of learning techniques commonly known as active learning. Students should expect to participate in active learning techniques such as discussions and presentations, small group activities, writing, problem-solving, movement, case studies, role-playing, etc. These activities promote analysis, synthesis, and evaluation of class content in order to improve student learning outcomes.

Assignments/Quizzes/Clinical Paperwork: All assignments must be completed and submitted on time in the manner specified by the faculty. Students may fail the course if all assignments are not completed. Late/makeup work will not be accepted (student will receive a 0%) unless previously arranged with the instructor or impacted by extenuating circumstances.

Exams: Students will notify the program nursing director/site faculty AND the lead course instructor 1 hour prior to missing the scheduled exam for the day and schedule a time to makeup that exam. Failure to notify these individuals may result in a conference with faculty recommendations for improvement. Missing more than one exam in the nursing courses in one semester as detailed in the attendance area of your handbook will result in an unsafe occurrence report with a performance improvement plan. All exams must be made up within 24 hours of the academic week. Extenuating circumstances will be considered, and subsequent actions decided by the nursing program director. Situations where students miss an exam need to be backed up with written documentation by a healthcare provider or other published documentation. It is the student's responsibility to contact the nursing program nursing director to arrange a makeup exam. "Notification" means that the student sends an email with the appropriate information or speaks directly to the nursing instructor AND program director per telephone or in person prior to one hour before the exam is scheduled.

Records of Grades: The faculty strongly endorses the idea that each student is responsible for knowing his/her own academic status based on grades from learning activities. Grades are recorded in the Blackboard Grade Center. All gradebook questions must be addressed by the student to the lead instructor at midterm and then

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

again during the week before finals. There will be no changes accepted to the gradebook regarding absent or late/missed assignments or late/missed exams during finals week. It is the student's responsibility to know what their grades are and contact the instructors or their Nursing Program Director for a plan to improve.

Nursing Department Etiquette: It is expected that students will show sensitivity to their peers as well as instructors by avoiding any activity that may cause distraction during class. Incivility will not be tolerated and is an unsafe behavior. Use of mobile devices and related applications, cameras, side conversations, and children are not allowed in the classroom/lab/clinical areas.

Nursing is a profession and thus requires professional behavior. It is expected that students will act in a professional manner displaying commitment to learning in the classroom, lab, all clinical areas, all college areas, and at all times in the public (including social networking sites when representing the college or the profession of nursing.)

Professional attire and decorum are expected when attending class, lab or clinical either face-to-face or via virtual delivery. During a virtual class, the camera settings will be on at all times and microphone settings will be on/off as requested by the faculty. Students will sign in with first and last names and will sign in 5 minutes before class time so faculty can take attendance. Students will be available the entire class time and will engage in the discussion or answer questions if called upon. Taking pictures or video of the other students without their consent is not allowed and considered uncivil behavior. Faculty and students will strive for an interruption free environment, refrain from driving, refraining from the use of other electronic devices, and not smoking, or eating during a virtual session.

Clinical Exclusions: Students may not:

- a. Administer medications without appropriate licensed oversight
- b. Take verbal provider orders or transcribe provider orders
- c. Administer blood or blood products
- d. Administer chemotherapy
- e. Witness consents
- f. Titrate drugs
- g. Perform skills or procedures that the student does NOT have the educational
- h. foundation to perform safely
- i. Perform any skill that is excluded by the clinical facility in regard to nursing students

Clinical Restrictions:

- a. Students are not to bring children to the clinical site or laboratory. These experiences require full attention and participation. Hazardous equipment and supplies may be accessible to children during laboratory experiences. Clinical site policies restrict children for safety reasons.
- b. Students may not leave the clinical site anytime (including during breaks) during the scheduled clinical hours; this includes visiting their car unless approved by the clinical instructor.
- c. Students may not use tobacco or e-cigarettes on breaks during clinical hours.
- d. Students will follow clinical facility policy on access to mobile devices and related applications during clinical rotations. There are no cameras allowed in a clinical facility unless used for a clinical purpose. Mobile devices including smart watches will not be accessed for any purpose unrelated to clinical. All mobile devices and related applications should be turned off, and stowed away unless they are being used for a clinical purpose.

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

Skills Practice and Skills Check-off: All students are required to practice their skills in the laboratory before they complete their skills re-demonstration. Practice time will be determined individually with the expectation that the student must be proficient in the skill before re-demonstrating it. Students must successfully demonstrate competence in performing specific skills in the laboratory before they are able to perform them in clinical.

Please review the expectations for successful skill re-demonstration in your nursing student handbook.

Course study expectations: Commitment to learning is important to success. For every semester credit hour, you are taking in a class, three hours needs to be set aside in your weekly schedule to read, study and devote towards your education outside of class.

For example: NURS 122 (3 credit) x 3 hours = 9 hours/week to study (minimal recommended study hours per week.)

Academic Dishonesty: Academic honesty is held in the highest regard within the Dakota Nursing Program. Academic dishonesty will be addressed following the policies outlined in your college catalog. Dishonesty may result in failure of the course and dismissal from the Dakota Nursing Program.

Student Role in Evaluation of Teaching, Course, and Program Evaluation: The Dakota Nursing Program student will evaluate faculty teaching and curriculum in the classroom, lab and clinical settings. The evaluations are an important source of information for both individual faculty and for program evaluation.

ATTENDANCE POLICY:

The Dakota Nursing Program supports the college policy on attendance as stated in your college catalog. In addition, the nursing program implements strict attendance policies for classroom, lab and clinical experiences. Students are expected to attend all theory, lab, and clinical hours.

Regular, punctual attendance demonstrates safe and professional behavior and responsibility. In recognition of the fact that the primary learning takes place in the teacher-student relationship, the principle governing class attendance is that the student is expected to attend all regularly scheduled classes (classroom, laboratory, and clinical) and is responsible for meeting course objectives. Absence may make it impossible for a student to meet course objectives and result in failure of the course. A student may be excused from class or clinical with the approval of the instructor. It is the student's responsibility to make arrangements to fulfill missed assignments with the appropriate faculty member. All makeup work may have a deduction in theory, lab, or clinical applications. All missed hours in lab or clinical need to be made up with an hour for each hour missed. Absences of more than four in any classroom, lab, or clinical course may result in course failure.

Please see the Attendance Policy in your Nursing Program Handbook for directions on how to notify faculty of and for consequences specific to being absent or tardy.

ACCOMMODATIONS:

To request academic accommodations due to a disability that may limit your ability to fully participate in this class/lab/clinical, please contact the disability services office listed for your college below. Personnel from that office will work with you and your instructor to arrange for reasonable accommodations after you have completed the registration process and it has been determined that you qualify. It is the student's responsibility to obtain the request for accommodation and provide it to the instructor and local campus nursing director.

- Bismarck State College Students: contact the Student Accessibility Office at 701.224.5671
- Dakota College at Bottineau Students: contact Disability Support Services at 701.228.5672

DROP AND WITHDRAW DATES CAN BE FOUND ON YOUR CAMPUS WEBSITE AT:

BSC – <http://www.bismarckstate.edu/current/records/calendarsdeadlines/>

DCB – <http://www.dakotacollege.edu/academics/academic-calendar/>

LRSC – <http://www.lrsc.edu/academics/term-schedules>

WSC – <https://www.willistonstate.edu/admissions/Cost/Important-Dates-and-Deadlines/>

If you have any questions about dropping or withdrawing from a class, please contact your campus coordinator or registrar.

ADDITIONAL INFORMATION:

All written work must be completed and turned in to the instructor prior to taking any scheduled exam. Any assignments which are not complete and turned in will result in the student failing the course with a grade of F.

Students are required to read the Dakota Nursing Program student handbook upon admission to the program and submit the signature form found in the handbook showing that the student will agree to follow the information and policies found in the handbook.

Material for this course will be posted onto the Blackboard site. It is your responsibility to check this site for assignments and notes. It is also your responsibility to know what your grade is in the course by reviewing the Blackboard gradebook.

WEB STREAMING (Yuja and Blackboard Collaborate platforms):

Yuja/Blackboard Collaborate are a lecture and content capture software chosen by the ND University System to provide that service for its 11 campuses. Yuja/Blackboard Collaborate enables faculty, students and staff to record presentations, lessons, training, an entire lecture, and more. The recorded content is searchable, provides for notetaking and participant rating of content, can be streamed live, and can be used on portable devices having internet access. Yuja/Blackboard Collaborate integrate with most learning management systems and are ADA compliant. An instructor's lecture for the DNP is recorded and stored within a learning management system for the duration of the semester. Instructors will record lectures on Yuja/Blackboard Collaborate. Students should be aware that their voices or any presentation they do in class may be recorded on Yuja/Blackboard Collaborate and available via Blackboard for other students in their class to view. The recordings will be available for viewing for the duration of the semester. Watching the class recordings via web streaming does not usually count as attendance for class but is highly encouraged if you are unable to attend class or wish to review concepts covered in class. Please refer to attendance policy if there are any questions.

GUEST SPEAKERS:

Guest Speaker Statement: Dakota Nursing Program is committed to presenting timely, innovative educational opportunities for its students. As part of those efforts, DNP faculty may invite guest speakers to address the student members of this course. Under FERPA regulations, such guest speakers are considered volunteers who serve a legitimate educational interest to institutional services or functions. Guest speakers will be informed by the faculty member of their responsibilities under FERPA to ensure student privacy. For more information, please visit the Department of Education's FERPA Student Privacy webpage at <https://studentprivacy.ed.gov/>

DAKOTA NURSING PROGRAM

Bismarck State College • Dakota College at Bottineau • Lake Region State College • Williston State College

FACULTY/STUDENT COMMUNICATION:

Faculty/students are responsible for checking course announcements in Blackboard, bulletin boards and/or mailboxes as appropriate at each campus for messages each class day. Email is used extensively within the Blackboard Learning Management System; students are responsible for having a working college email account and checking it daily during the semester. Students, staff and faculty are expected to respond to emails promptly – within 48 hours during a usual work week or as requested. The purpose is to ensure rapid communication between students and instructors. Students must notify the nursing coordinator if their email address changes.

Faculty and students must identify themselves professionally with each contact (mail, email, or telephone). This includes first and last name as well as identification of location within the consortium.

Example of student identification at end of each email:

Joan Miller
DCB – Minot

Communication between students and faculty should remain on a professional level with no questionable jokes, cartoons, etc. transmitted. Students using the institution's computer labs are reminded that they cannot download information onto the computer hard drives. Any information must be stored on an alternate drive.
