

CIS 180 – Creating Web Pages

3 Credits

Course Description: Learn to write HTML for the purpose of creating webpages.

Course Objectives:

Students are expected to:

- Write HTML, XHTML, and CSS code for creating webpages.
- Demonstrate the ability to use present knowledge as well as research to solve problems.
- Understand the basic format of webpages and websites.
- Critique webpages for content and appearance.
- Apply concepts covered in the class to assignments, assessments, discussions, quizzes, midterm and final tests, and a final project.

Instructor: Kayla O'Toole

Office: Online

Office Hours: Use the eMail tool within the online course to communicate with the instructor. Course eMail messages will be checked daily, Monday through Friday. If you have a technical problem, contact the Distance Education office by calling 1-701-228-5479 or 1-888-918-5623 (toll-free).

Email: Use online course eMail tool.

Class Schedule: Online

Textbooks: *Dennis Gaskill; Web Site Design Made Easy, Learn HTML, XHTML, and CSS; 3rd Edition; ISBN 0-89582-735-2.*

Course Requirements:

Independent Practice: Read the chapters in the textbook that are assigned and complete the assignments that are assigned at the end of the chapters.

Assignments: Points will be earned the following: assignments given at the end of each chapter, posting to class discussions, quizzes, a midterm test, a final test, and a final project.

Tests: There will be quizzes throughout the semester. Students will also have to complete a midterm and a final exam.

Classroom Policies:

- This course uses a combination of instructional formats including lecture notes, discussion, and electronic communication. The lecture notes are not a substitute for reading the text, and all reading assignments need to be completed.
- Cheating will result in the automatic failure of this course.
- All assignments will be submitted to the Assignment Dropbox. Assignments that are late will have points deducted accordingly.
- Incompletes are handled according to the campus policy.

Evaluation:

Grading Method : Your final grade is determined by totaling the points you earn. Each assignment, Quiz, Test, project, and Discussion Post is worth a set number of points.

Grading : Grades will be calculated by dividing the points earned by the total points possible. The letter grade is based on the following criteria:

A=90-100

B=80-89

C=70-79

D=60-69

Academic Integrity: The academic community is operated on the basis of honesty, integrity and fair play. It is the expectation that all students, as members of the college community, adhere to the highest levels of academic integrity. This means that

Students are responsible for submitting their own work. Student work must not be plagiarized

Students must not cooperate on oral or written examinations or work together on evaluated assignments without authorization

To learn how to avoid plagiarism in your work, review the website from Purdue University, [Is It Plagiarism Yet?](#)

Violations of academic principles such as cheating, plagiarism or other academic improprieties will be handled using the guidelines outlined in the [Student Handbook](#) on pages 18, 19, and 37

Disabilities and Special Needs:

If you have a disability for which you need accommodation, contact the Learning Center to request disability support services: phone 701-228-5477 or toll-free 1-888-918-5623.
