

ASSOCIATE OF SCIENCE

Agriculture

The agriculture curriculum at DCB provides a general education based curriculum for students pursuing a bachelor's degree in the agriculture leading to an Associate of Science Degree. The curriculum is designed to prepare students to subsequently pursue a bachelor's degree in agriculture.

Why study agriculture?

Studies in agriculture prepares students for careers related to farming and ranching, agribusiness and caring for natural resources.

Career choices

Graduates with a degree in agriculture are in high demand, with career opportunities in a wide variety of agriculture-related industries. Some examples of agriculture careers include:

- Farm/ranch manager
- Commodities broker
- Agronomist
- Country extension agent
- Loan officer
- Plant scientist
- Precision agriculture specialist

General education requirements

Completion of the Associate of Science degree with the biological sciences curriculum will meet the North Dakota University System's GERTA (General Education Requirement Transfer Agreement) requirements.

Core agriculture program classes available

- BIOL 150/151 General Biology I and II
- BIOL 170 General Zoology
- PLSC 110 World Food Crops
- RNG 236 Range Management
- SOIL 110 Intro. to Soil Science

“ I felt that the agriculture program classes adequately prepared me for more in depth program classes at the university level. **”**
