

DAKOTA COLLEGE AT BOTTINEAU

ASSOCIATE OF SCIENCE

Business Education

This degree is designed for the student planning to transfer to a four year baccalaureate degree program and complete the requirements to teach at the secondary level.

Why study business education?

Graduating with a degree that leads to employment is important to your future. The Associate of Science (AS) in Business Education program will prepare you to transfer to a four-year program where you will complete your business education degree.

Business education teachers prepare middle and high school students for careers in business through hands-on exercises and experience. As a business education teacher you will write lesson plans, grade assignments and tests, and advise student organizations.

Teaching is both rewarding and challenging. As a business education or marketing education teacher, you can expect to work regular school hours. You will also likely work some nights and weekends, preparing lesson plans, grading assignments and tests, and advising student organizations.

General education requirements

These required classes will prepare you to transfer to a four-year university.

Core business education classes

- Accounting
- Microeconomics
- Macroeconomics
- Business in the Legal Environment
- Introduction to Education
- Educational Psychology

“I was easily able to pursue a bachelor’s degree in business education because of the excellent courses I took at Dakota College at Bottineau. The course contents were delivered effectively in a positive learning environment allowing me to make the most of my education experience. I commend all instructors at DCB for the effort they put into educating their students; they truly had a positive impact on my life. The instructors at DCB offered a multitude of courses allowing me to gain the necessary background information to successfully pursue my degree in business education.”

— Cody Brooks, Dunseith, ND
